The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a center of the German furniture industry. Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high-quality furniture fittings, with presence in more than 100 countries.

The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

Benefits that come with sliding doors

Sliding doors show what they're made of in everyday use. With regard to ergonomics and convenience, the majority of consumers believes that sliding doors are superior. And for good reasons: When open, sliding doors don't get in the way where space is at a premium. Open doors on wall units are not likely to leave you injured. Sliding doors are also easy to open without stretching or dodging out the way.

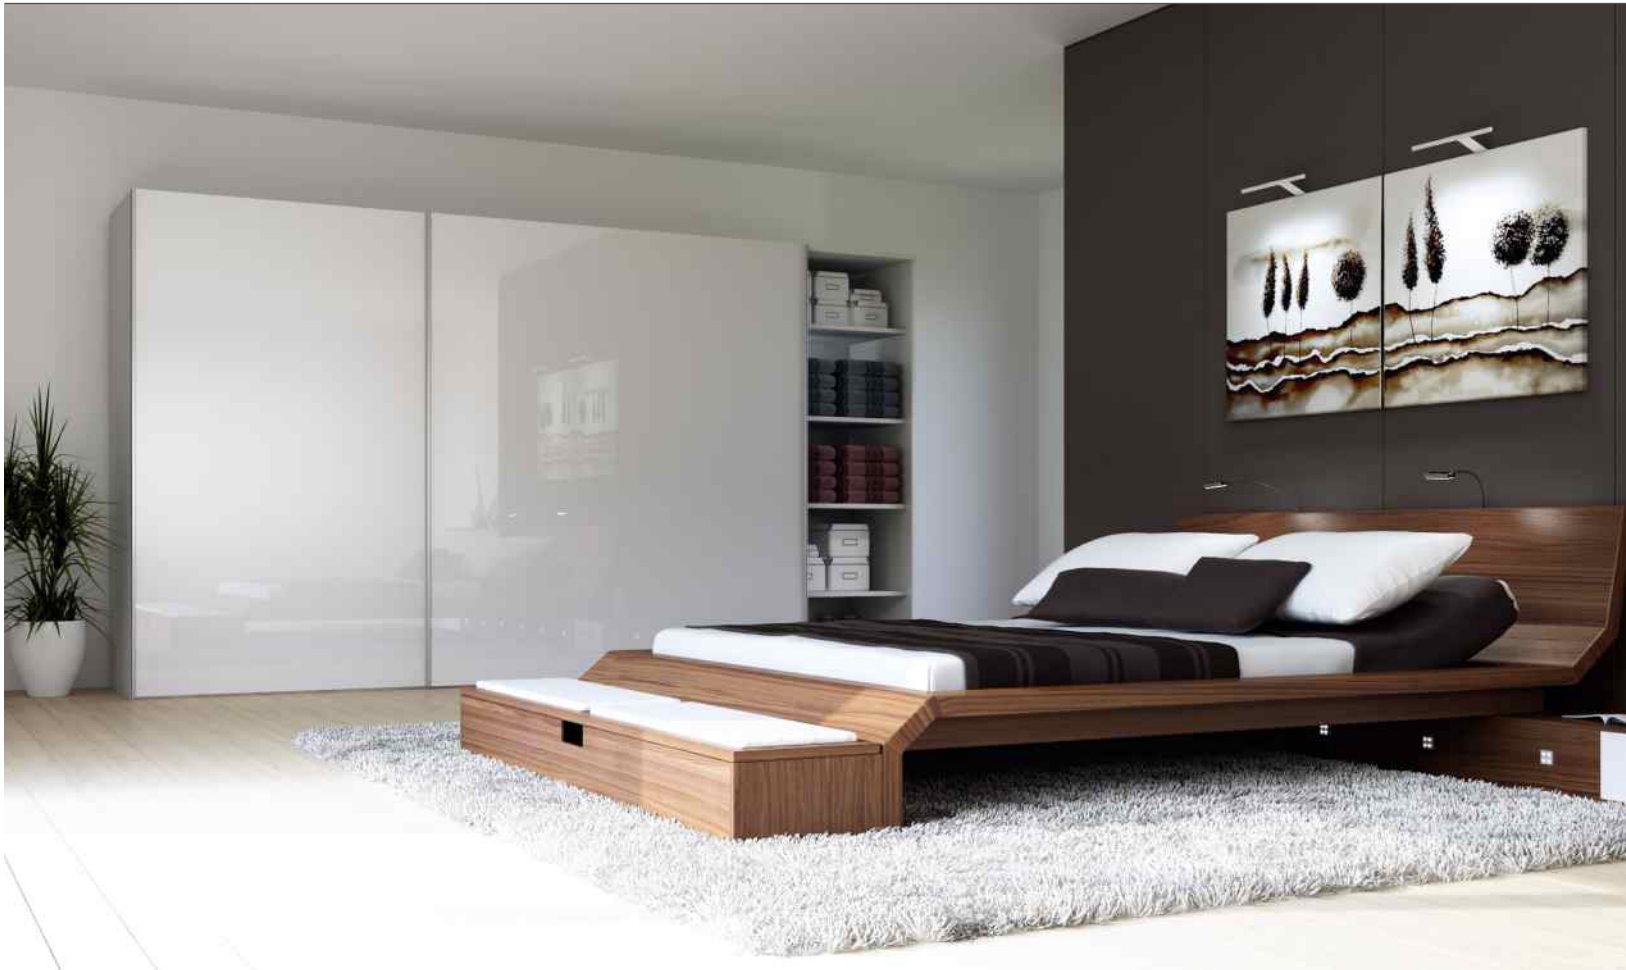

Creativity with sliding doors

Sliding doors provide the key to picking up on modern, spacious interior design and continuing it in furniture. Large-surface doors create purist interiors, especially when they come from flush fitting sliding door systems. Modern sliding door systems appeal for their narrow gaps, which are reduced to the minimum by large-size fronts. Straightforward precision adjustment guarantees impeccable assembly results complemented by perfect gap alignment.

This series will provide you with a wealth of new ideas and helps you to design your:

- Bed Room
- Kitchen
- Living Room
- Kids Room
- Vanity
- Office

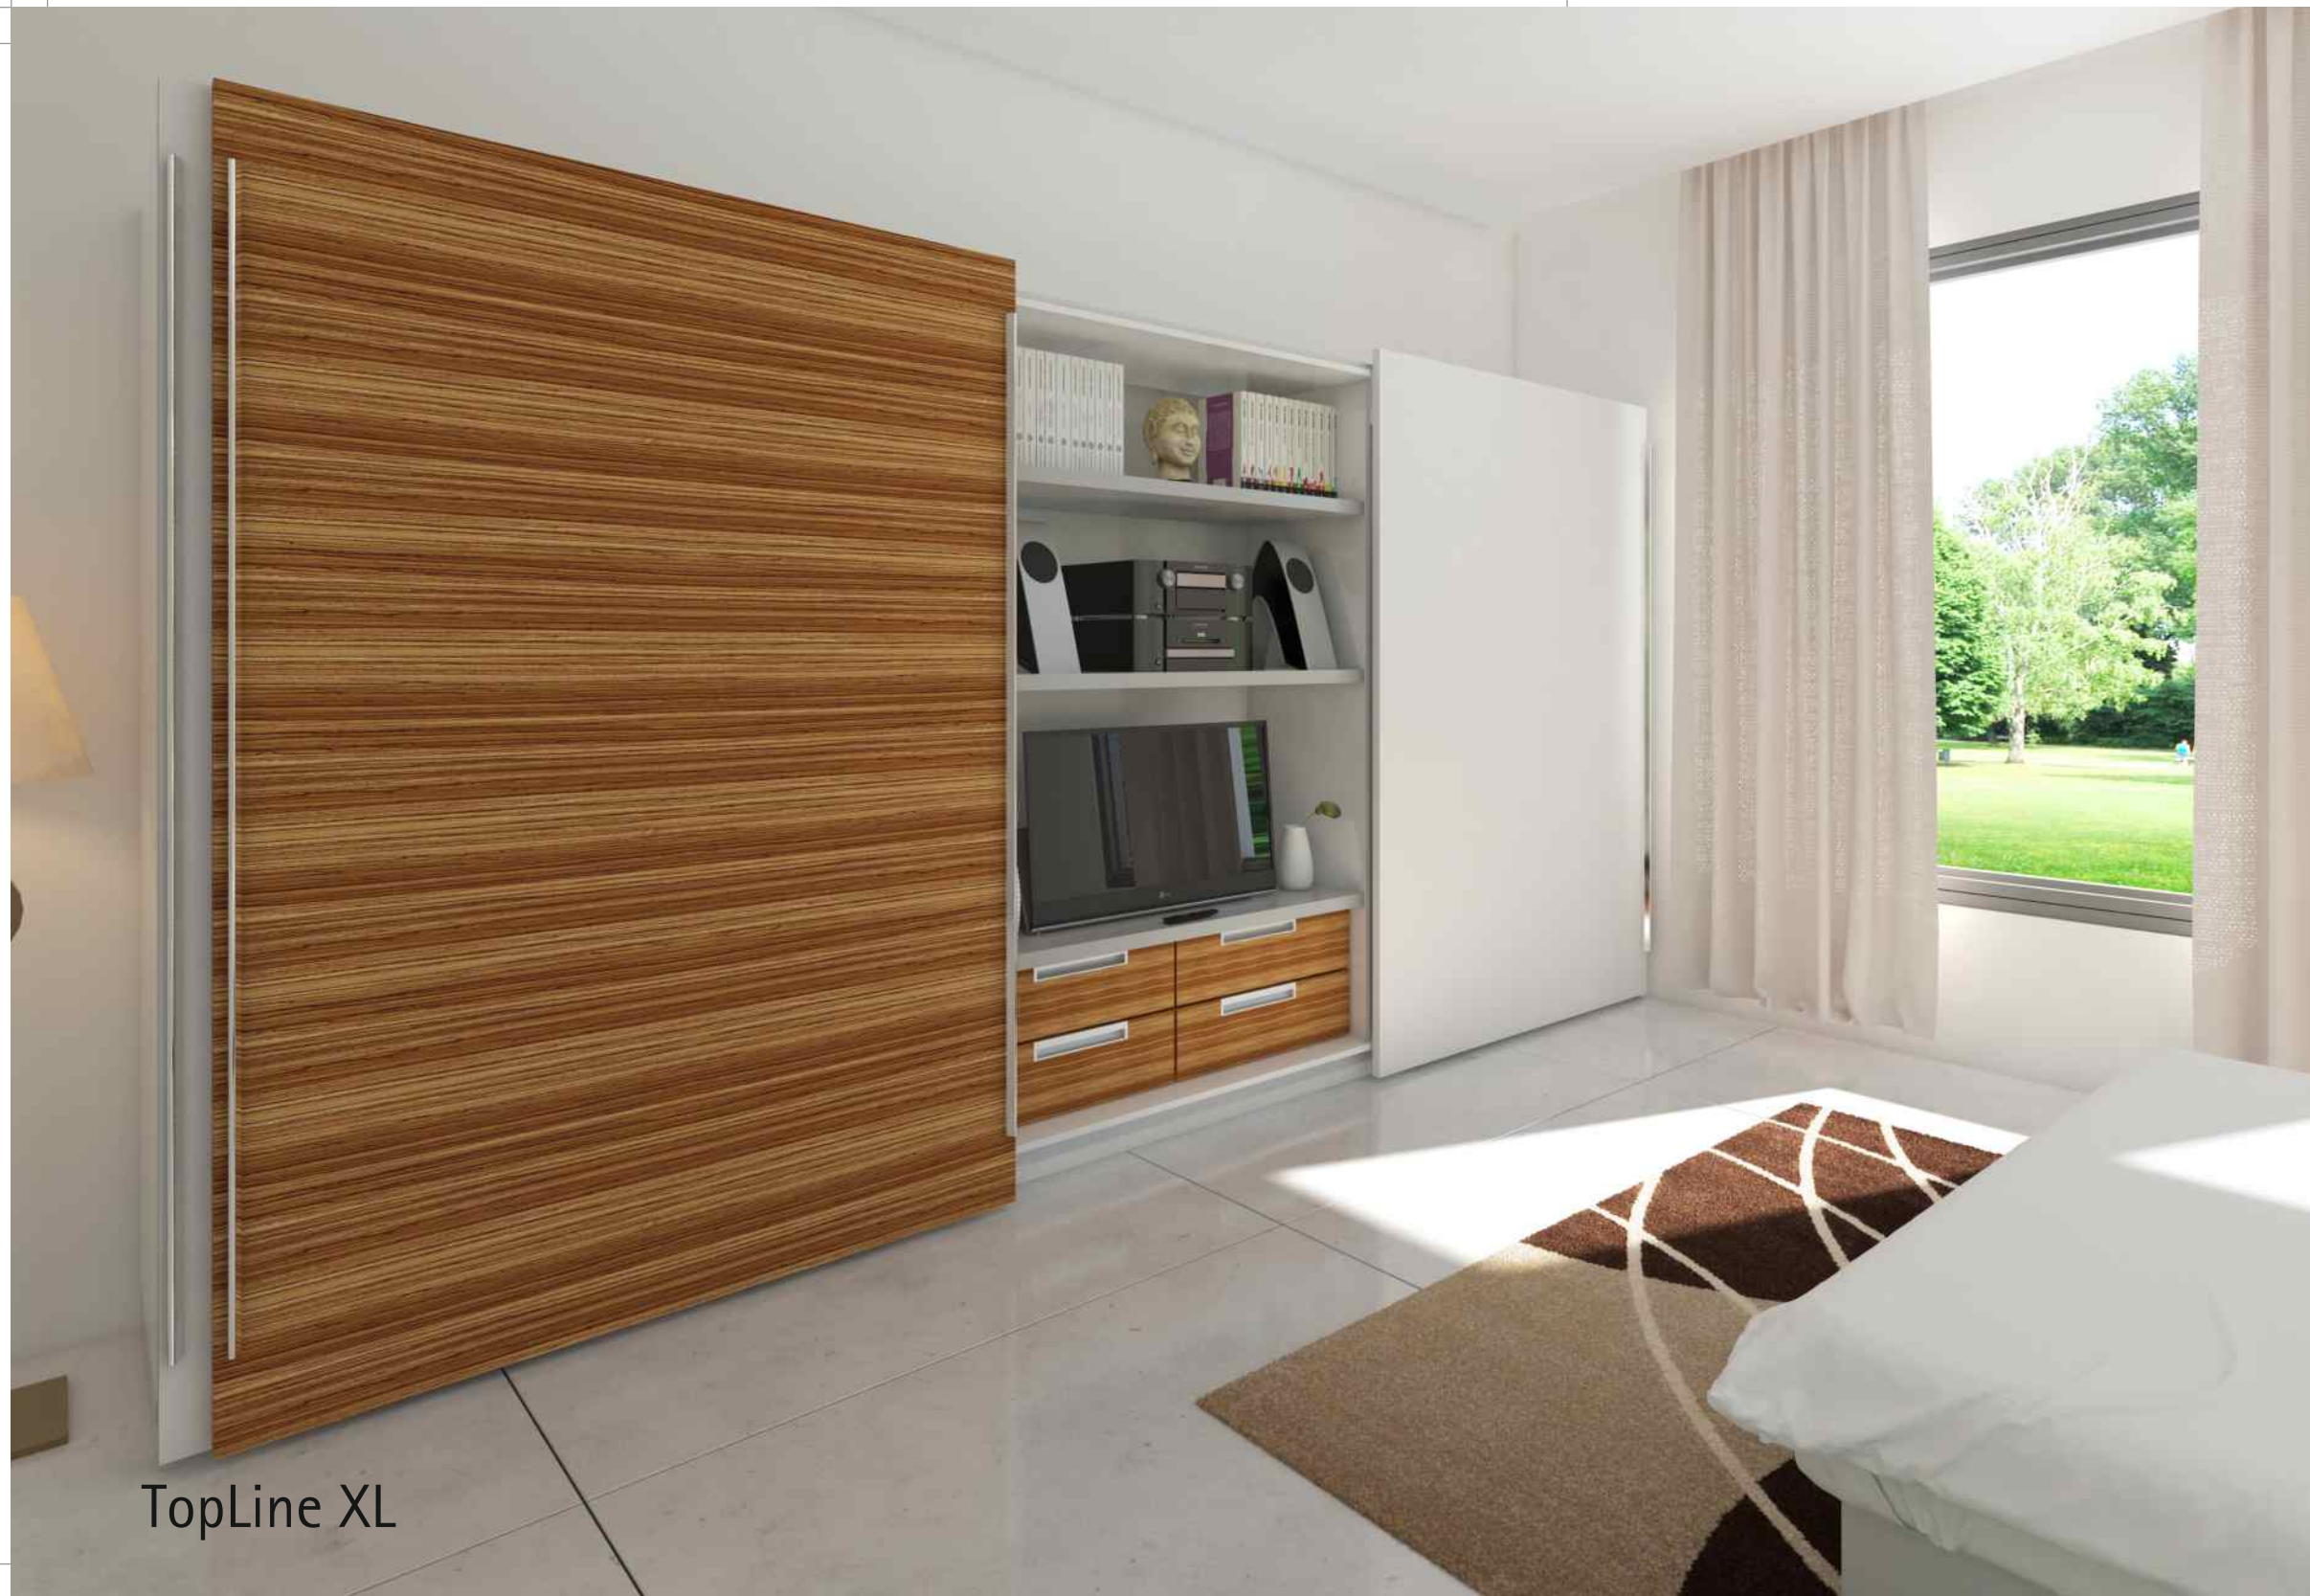

Peace and tranquillity

If the bedroom were only for sleeping in – we could keep it short in this section. But modern bedrooms are more than a home's haven of tranquillity. It's a favorite place for daydreaming, relaxing with a book or watching a good program in the evening. And in most cases also for getting dressed and changed. This means bedrooms also need a clear infrastructure, intelligent functions and a homely ambience. Technical equipment needs to keep a low profile more than in any other part of the home. Very important: comfort, convenience and tranquillity are top priority.

Bed Room

TopLine XL

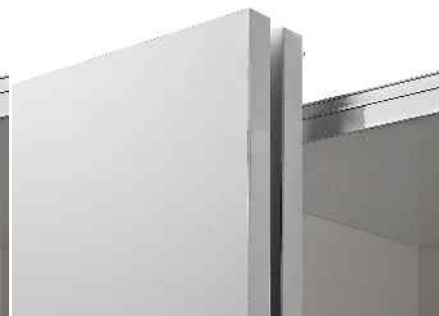

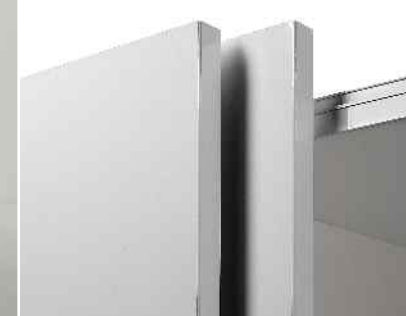

TopLine XL (3 Door):

- ▶ 2-track, top-running sliding door system
- ▶ Overlay door position
- ▶ For wooden doors or wood / aluminium-framed doors
- ▶ Door weight up to 80 kg
- ▶ Door height up to 2600 mm
- ▶ Door width 700 - 2000 mm
- ▶ Door thicknesses 16, 18, 19, 22, 25, 28, 40, 50 mm
- ▶ Height adjustment ± 2 mm
- ▶ Door height, door reveal and closing force can be adjusted

Offset opening

Flush opening

TopLine XL

TopLine XL (2 Door):
► Convenient height adjuster for super-fast, precision door alignment.

► Easy installation: Simply hook doors into runner profile, clip into place.

1. TopLine L:

- ▶ Benefiting from superior technology, TopLine L impressively demonstrates all the benefits of sliding doors.
- ▶ Huge design flexibility and ease of installation are valuable advantages as early as the development phase.
- ▶ TopLine L brings beautifully quiet and gentle running action to sliding doors weighing up to 50 kg.

2. SlideLine M:

- ▶ SlideLine M provides the capability of combining open and closed sections in furniture.
- ▶ The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.

InLine XL

InLine XL:

- ▶ Top-running, flush-mounted sliding door system
- ▶ Flush fitting doors
- ▶ For wooden doors or aluminium-framed doors
- ▶ Door weights up to 60 kg
- ▶ Door height up to 2600 mm
- ▶ Door width 750 – 2000 mm
- ▶ Door thickness 16, 18, 19, 22, 25 mm
- ▶ Soft-close Silent System (adjustable) in opening and closing direction

Design purity. Ergonomic perfection.

- ▶ In the opened position, sliding doors are left completely flush, one in front of the other.
- ▶ This makes internal pull-outs particularly easy to use as they are completely unobstructed – entirely without spacers.
- ▶ Flush fitted sliding doors are easy to open from the door's leading edge – bringing convenience and ergonomics previously unwitnessed before the arrival of InLine XL.

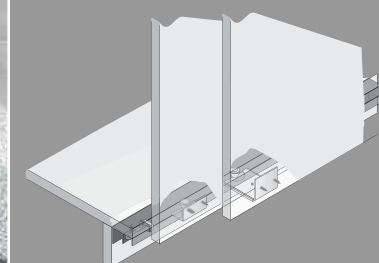

TopLine 22

TopLine 22:

- ▶ Classic system for heavy cabinet doors weighing up to 50 kg.
- ▶ This sliding door system is ideal for units with doors in widths of 500 mm and over, e.g. in bedrooms.
- ▶ With four different guide systems to choose from, the plinth zone can be matched to virtually any furniture design.
- ▶ Special running components make the system suitable for use on framed doors.

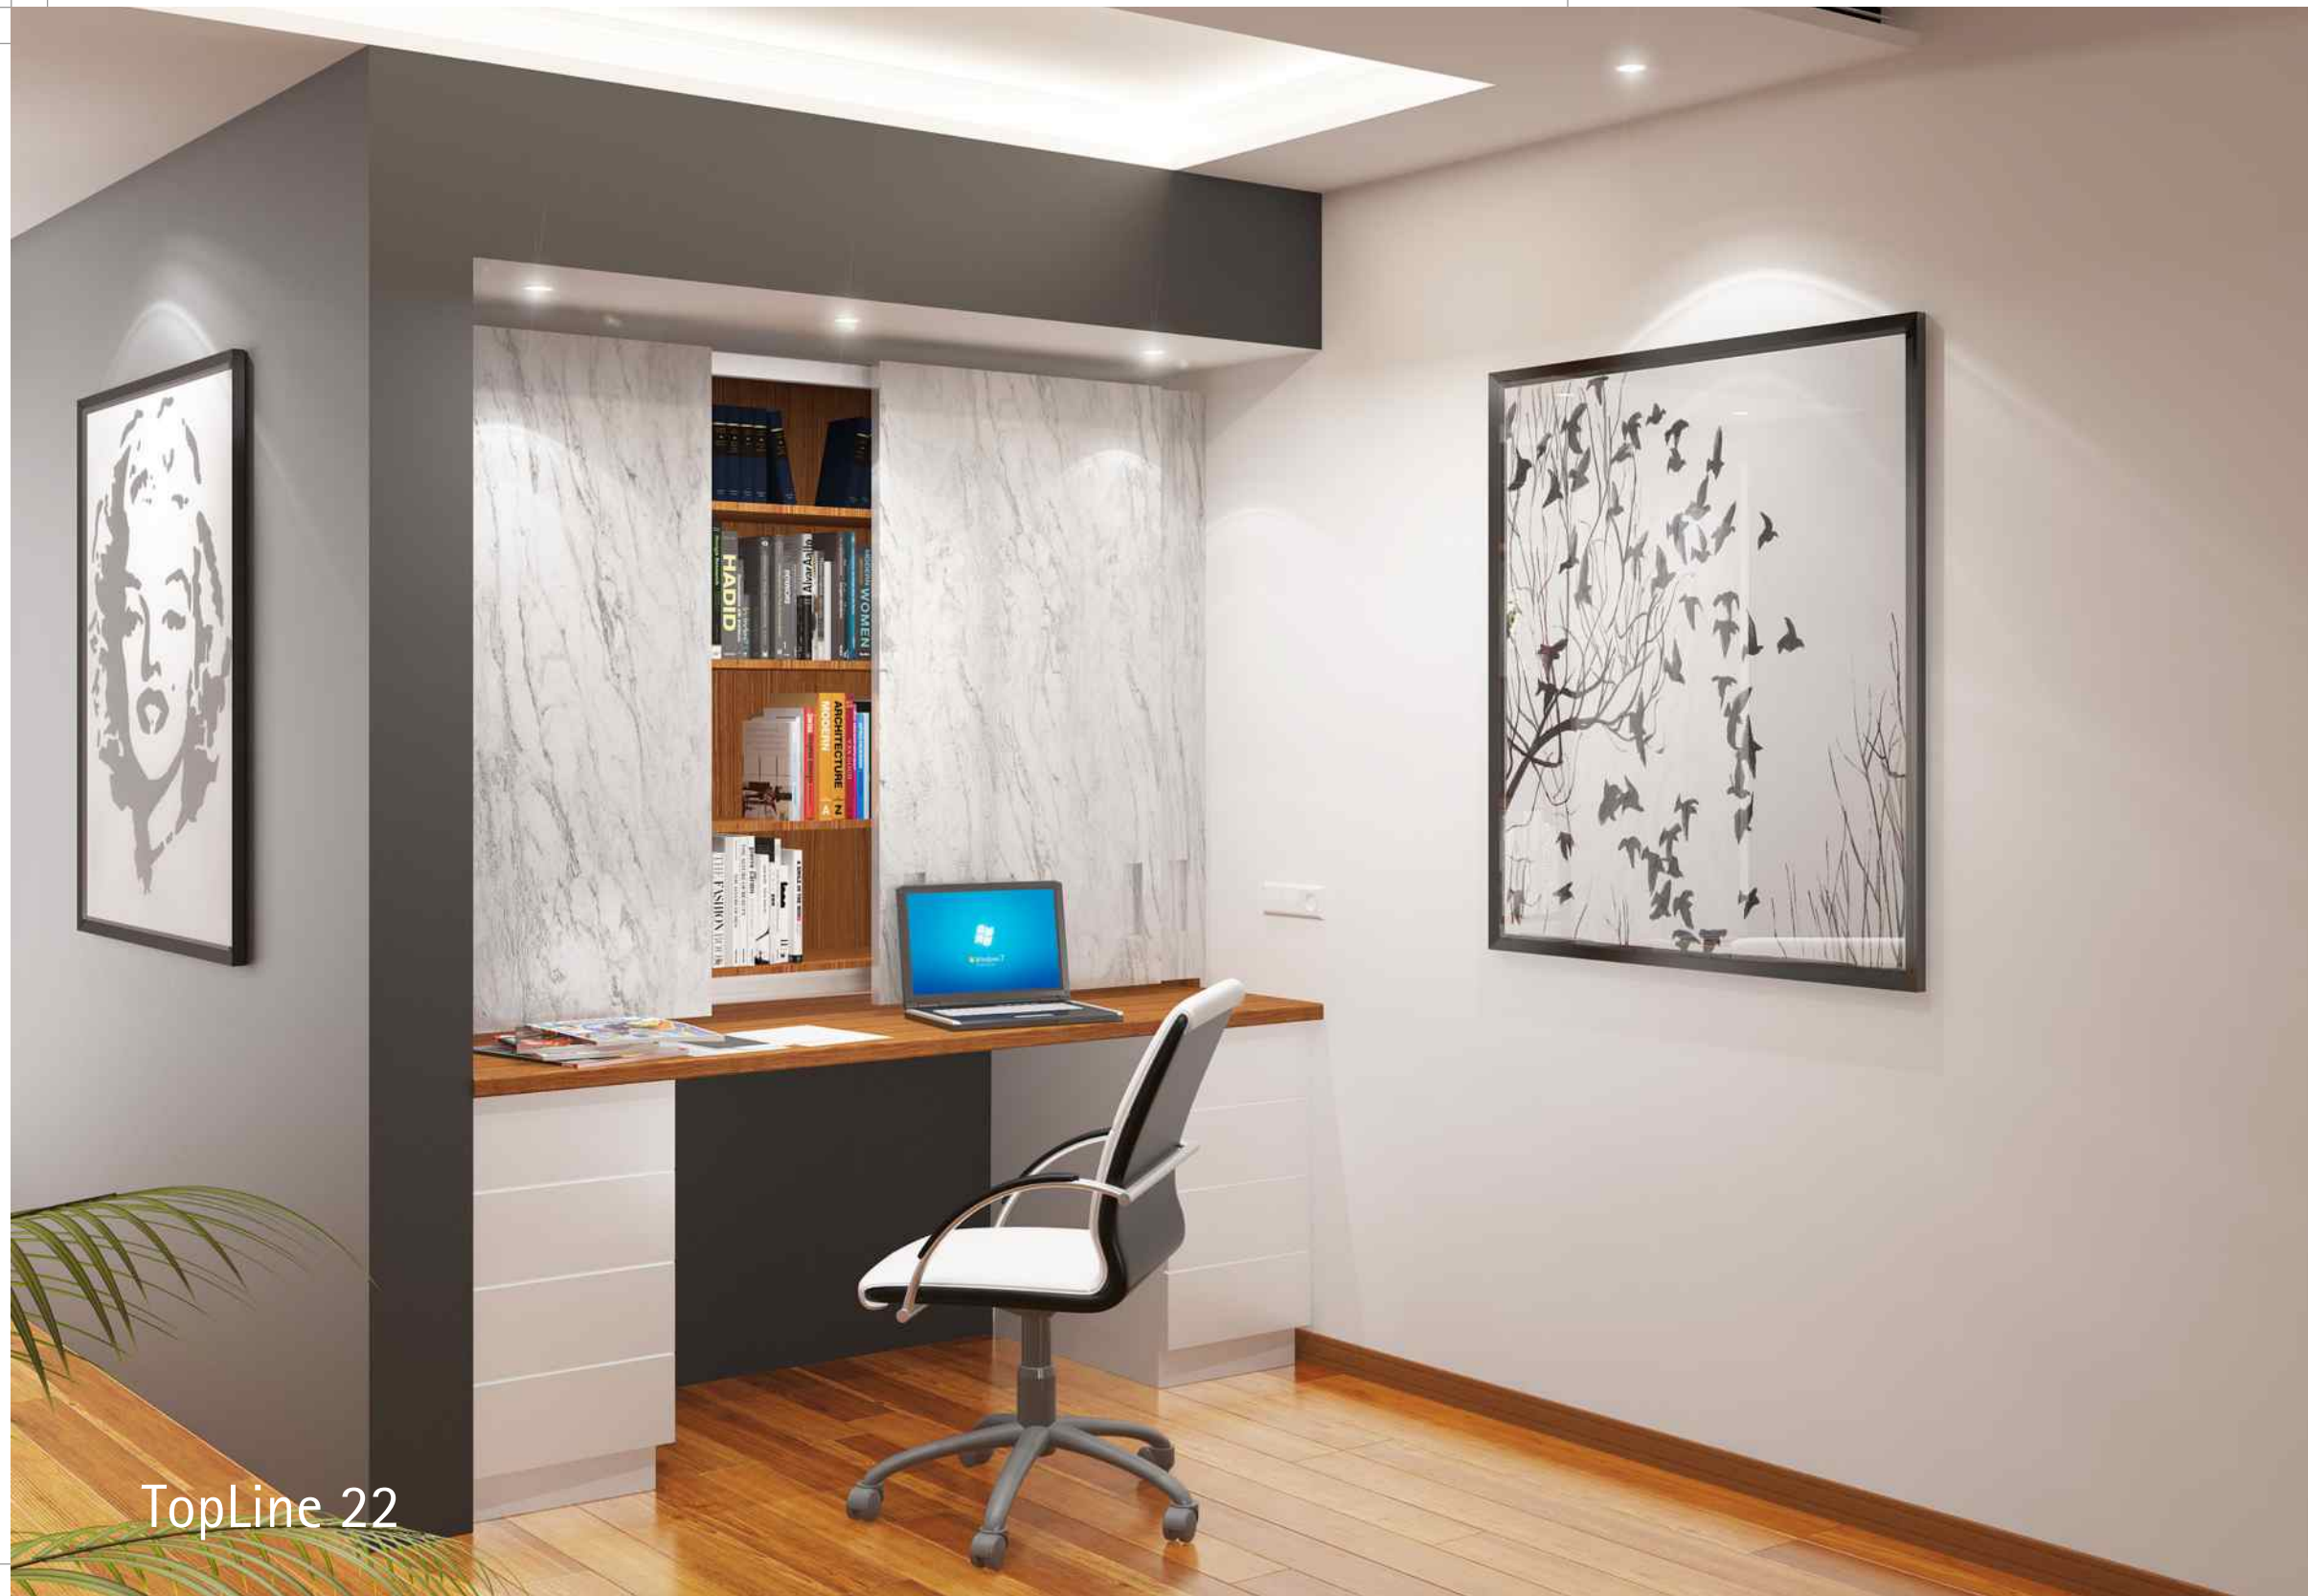

TopLine 22 with Aluminum Profile

Bottom door-guide set STB 11:

- ▶ For plinth set back by 46 mm
- Set comprises:
 - ▶ Guide components for front -most door
 - ▶ Guide components for rear -most door
 - ▶ End stops for guide profile

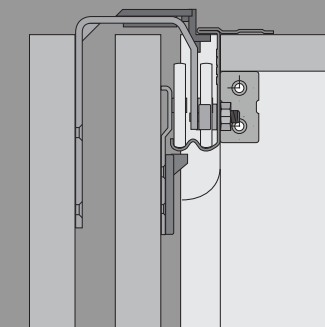

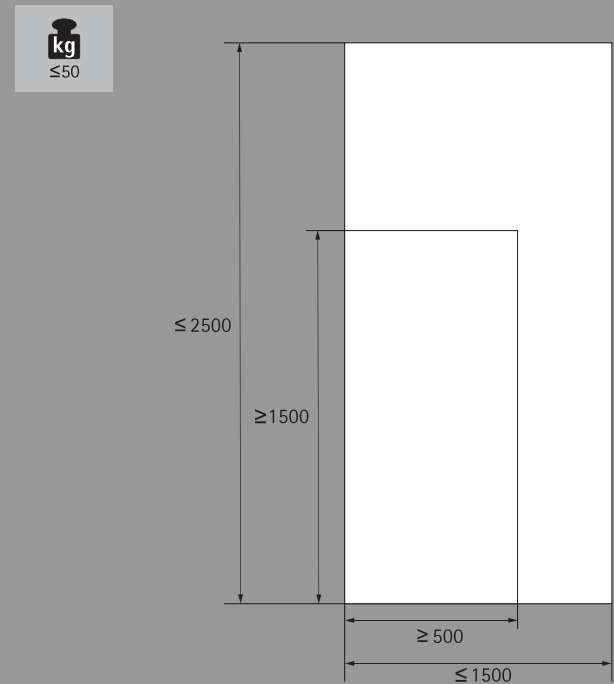

TopLine 22

TopLine 22:

- ▶ 2-track, top-running sliding door system
- ▶ Overlay door position
- ▶ For wooden doors or wood / aluminium-framed doors
- ▶ Door weight up to 50 kg
- ▶ Door height up to 2500 mm
- ▶ Doors over 500 mm wide
- ▶ Door thickness 16, 18, 19, 21, 25, 28 mm
- ▶ Can be combined with bottom guide STB 11, STB 12, STB 15 and STB 35

Min. and max. door sizes:

Runner profile for mounting in front of top panel:

- ▶ For installation in front of the cabinet top panel
- ▶ For use with Silent System Flexible 50
- ▶ Aluminium, silver anodised

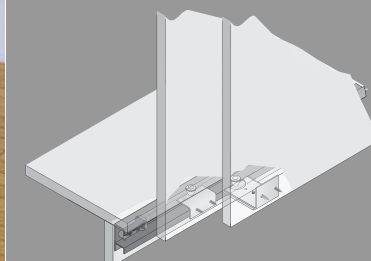

TopLine 1

TopLine 1:

- ▶ 2-track, top-running sliding door system
- ▶ Inset door position
- ▶ For wooden doors
- ▶ Door weight up to 50 / 75 kg
- ▶ Door height up to 2,500 mm
- ▶ Doors over 500 mm wide
- ▶ Can be combined with bottom guide STB 11, STB 12, STB 15 or STB 35

TopLine 1 (3 Door)

Bottom door-guide set STB 12:

- ▶ For base offset, 28.5 mm
- Set comprises:
 - ▶ Guide components for front-most door
 - ▶ Guide components for rear-most door
 - ▶ End stops for guide profile

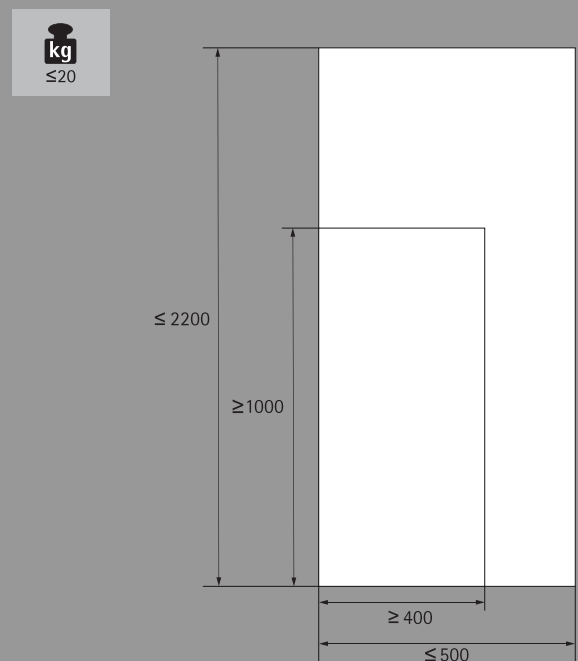

WingLine 770

WingLine 770:

- ▶ The perfect synthesis of high loading capacity, attractive design and fast installation.
- ▶ The folding door system simply hooks into the runner profile with guide rollers keeping it place.
- ▶ Quality that's felt in every movement.
- ▶ Designed for doors weighing up to 20 kg.

Min. and max. door sizes:

- ▶ Doors can be fitted and removed with effortless ease– with a new shelf layout adding to the convenience.

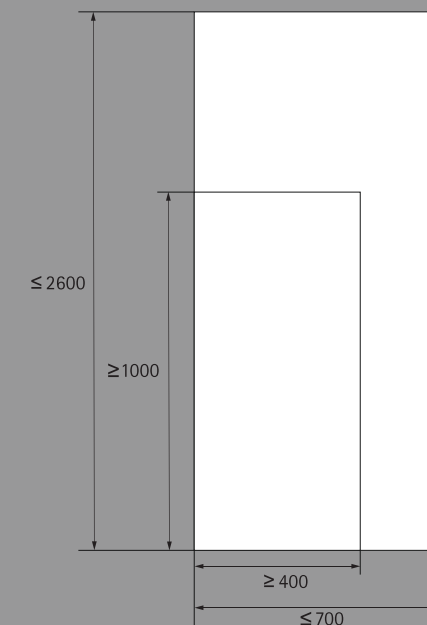

WingLine 77 & Horizon Plus

1. WingLine 77:

- ▶ Folding door system with 2 door panels
- ▶ Overlay door position
- ▶ For wooden doors
- ▶ Suitable for use with soft-closing Sensys hinge
- ▶ Door panel weight up to 25 kg
- ▶ Door height up to 2400 mm
- ▶ Door-panel width up to 500 mm
- ▶ Height adjustment +/- 3 mm
- ▶ Centre panels recessed 40 mm

Min. and max. door sizes for Horizon Plus:

2. Horizon Plus:

- ▶ HorizonPlus swivel fitting lifts the cabinet door horizontally out of the flush front and swings it to the side.
- ▶ This function lends itself in particular to multiple-element cabinets where open doors are left positioned in front of adjacent carcass segments. Depending on cabinet design,
- ▶ HorizonPlus can be used on single or double doors as well as on corner units.

At the centre of life

Whether a quick breakfast in the morning or casual evening meal with friends – the kitchen is the hub of everyday living. Behind the scenes, Hettich provides convenience and quality of life. With practical fittings technology that makes kitchen work easier and improves ergonomics. Let's say with drawers that open almost by themselves and close again in complete silence. Or with larger units for clearly organized, easy-access food storage. These inner values of a kitchen also open up new avenues in design. Handleless fronts, wide pull-outs and large-surface fronts make aesthetic statements in modern kitchens. And create a high-class, prestigious look.

Kitchen

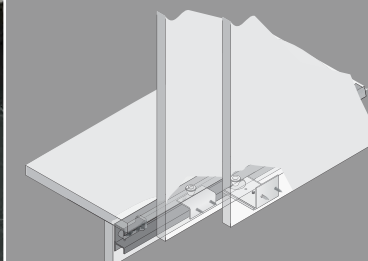

TopLine 22

TopLine 22:

- ▶ Classic system for heavy cabinet doors weighing up to 50 kg.
- ▶ This sliding door system is ideal for units with doors in widths of 500 mm and over, e.g. in bedrooms.
- ▶ With four different guide systems to choose from, the plinth zone can be matched to virtually any furniture design.
- ▶ Special running components make the system suitable for use on framed doors.

Silent System Flexible 50

Bottom door-guide set STB 12:

- ▶ For base offset, 28.5 mm
- Set comprises:
 - ▶ Guide components for front-most door
 - ▶ Guide components for rear-most door
 - ▶ End stops for guide profile

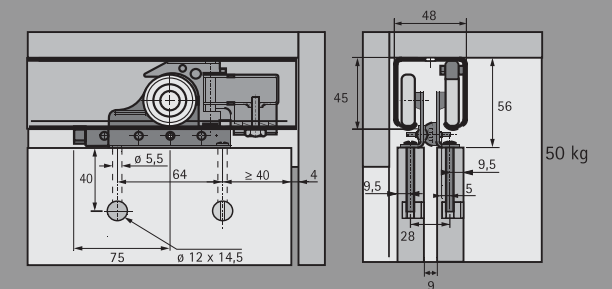

TopLine 1

TopLine 1 (50 kg):

- ▶ The universal sliding door system that's primarily intended for bedroom furniture. Weighing 50 to 75 kg depending on system,
- ▶ The sliding doors can be combined with various two-track guide systems – adapting them to suit the chosen plinth design.

Technical Information for door weight 50 kg:

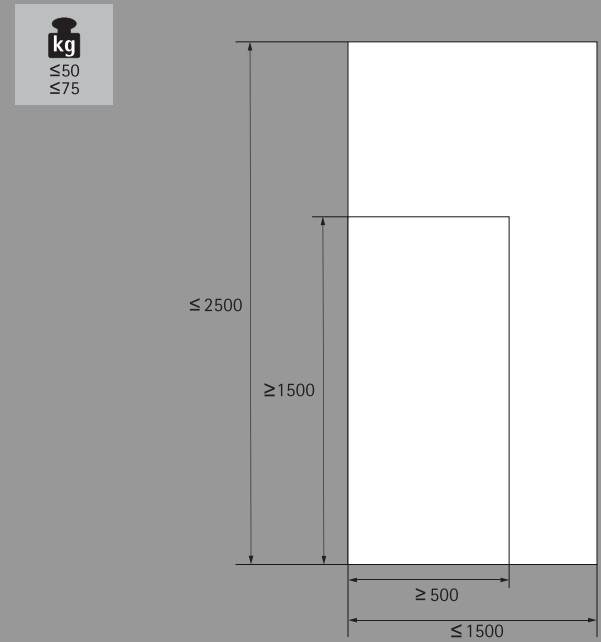

TopLine 1

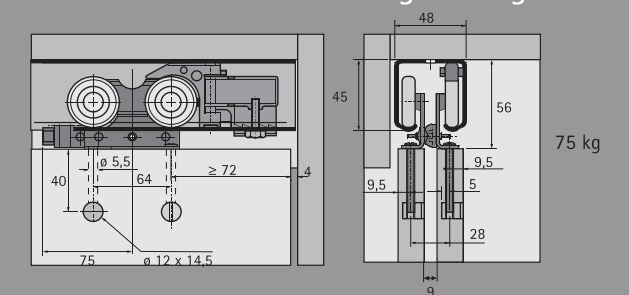

TopLine 1 (75 kg):

- ▶ 2-track, top-running sliding door system
- ▶ Inset door position
- ▶ For wooden doors
- ▶ Door weight up to 50 / 75 kg
- ▶ Door height up to 2,500 mm
- ▶ Doors over 500 mm wide
- ▶ Can be combined with bottom guide STB 11, STB 12, STB 15 or STB 35

Min. and max. door sizes:

Technical Information for door weight 75 kg:

- ▶ Door panel weight up to 20 kg
- ▶ Door height up to 2200 mm
- ▶ Door-panel width up to 500 mm

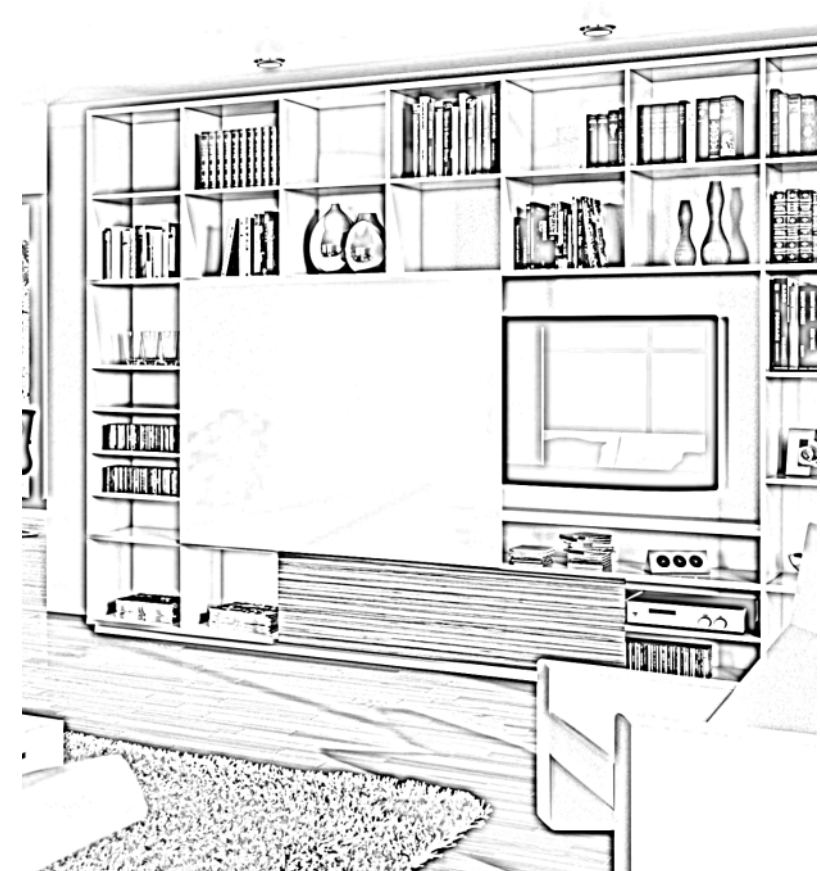

Technical Information:

The variety of life

The living room is a place that brings together life's temperaments: chilling and chatting, watching television and partying, listening to music and enjoying a moment's peace. And, wherever possible, it should always provide the perfect ambience and practical functionality. With Hettich, meeting this demand is not a problem. Hettich's technology for furniture brings variety and convenience to living spaces. And paves the way for a new design philosophy: generously sized fronts hiding away entertainment and multimedia equipment, for instance, that can be moved into position when they're needed by high-strength, smooth-action runners.

Living Room

SlideLine 66

SlideLine 66:

- ▶ As a single-track sliding door system, SlideLine 66 is the perfect design element for creating bookcases and shelf systems.
- ▶ Weighing a maximum of 10 kg each, the aluminum, wooden or glass doors hug the cabinet carcass, with two doors being able to run one in front of the other.

Min. and max. door sizes:

- ▶ Mounted on SlideLine 66, the doors run directly in front of the carcass.
- ▶ For sliding doors in wood, glass or with aluminum frame.

①

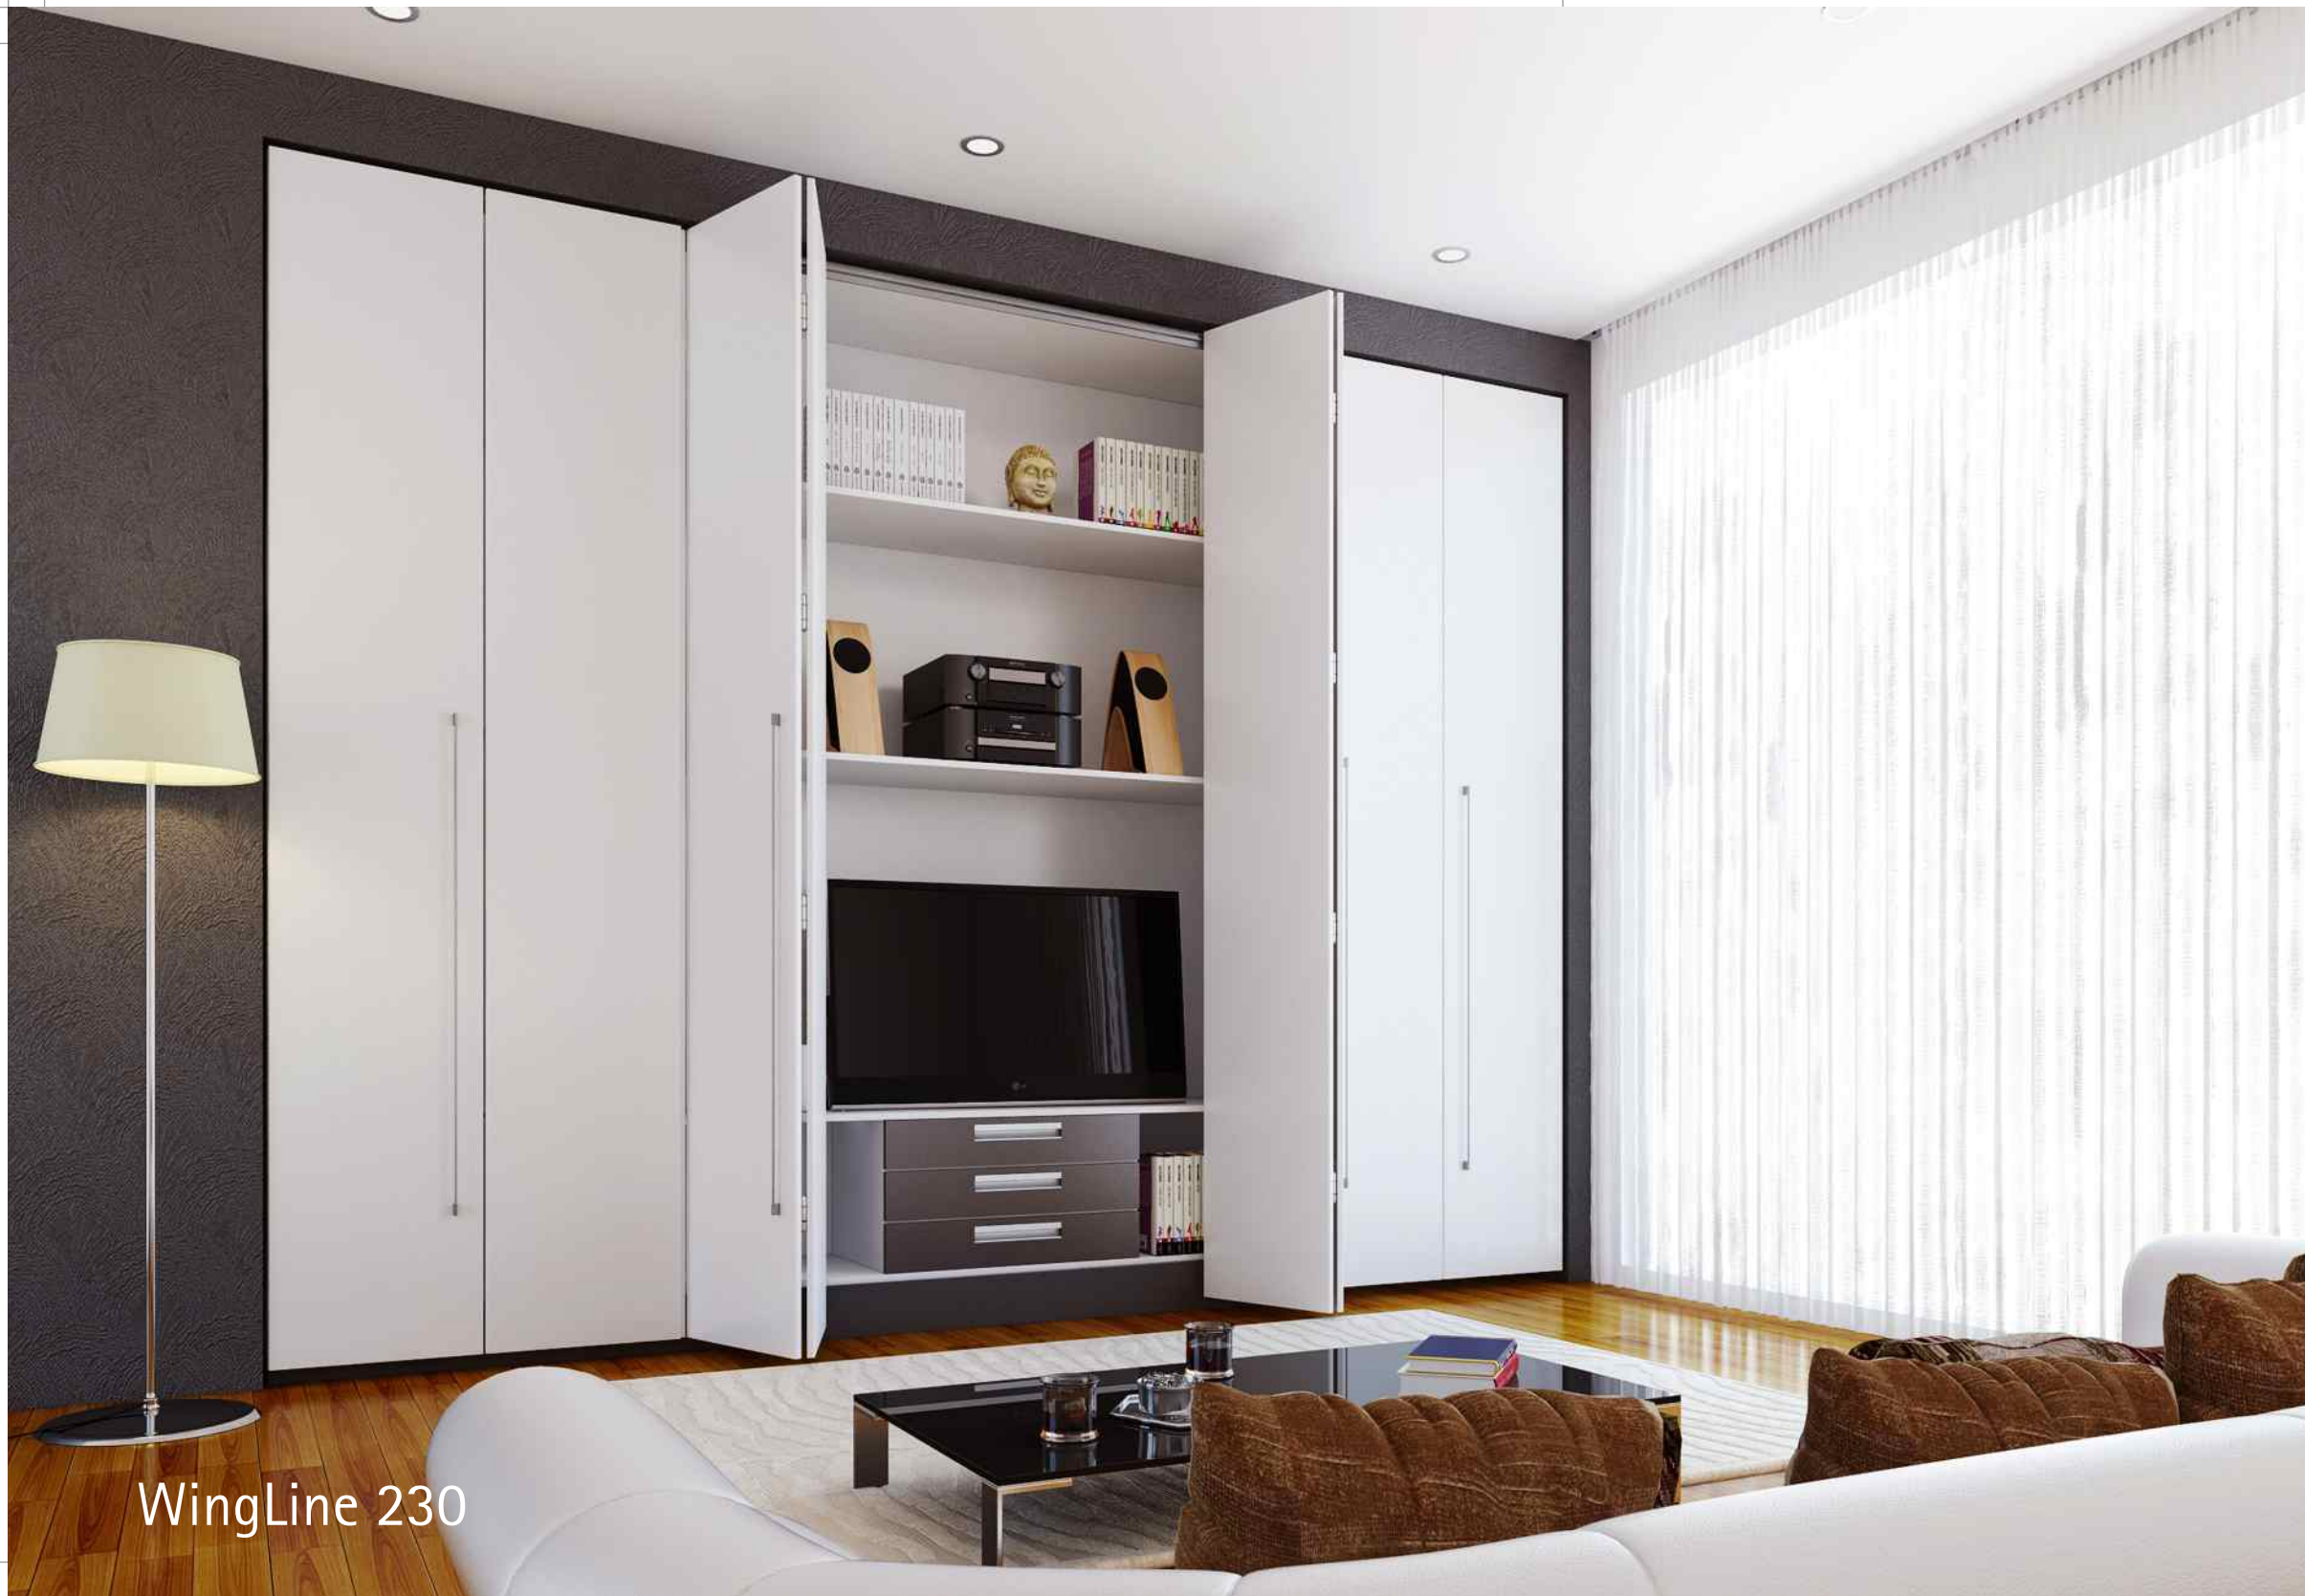

②

1. Vertico Synchro:

- ▶ Vertico Synchro single track sliding door system simultaneously moves two doors weighing up to 15 kg each.
- ▶ The doors run in an inset or overlay aluminium profile.
- ▶ The synchronising mechanism is pre-mounted in this profile.

- ▶ +/- 2 mm height adjustment
- ▶ Soft-close Silent System in opening and closing direction
- ▶ Fast installation of front without need for tools

Home pampering

A refreshing start to the day, and a relaxing soak in the evening: the bathroom is the home's haven of pampering and indulgence. It's where body and soul can unwind. Can furniture technology be of help here? And how! Luxury bathroom interiors pamper the senses and promote relaxation. With drawers and cabinet doors that close in silence, for example. With intelligent interior organizers that keep everything in reach. And innovative fittings that move furniture fronts smoothly and quietly. In most cases, Hettich furniture for technology goes unnoticed. And that's the biggest compliment technology can ever be paid.

Vanity

1. TopLine XL:

- Specialising in heavy doors: the top-running TopLine XL sliding door system is designed for doors weighing up to 80 kg.
- Outstanding running action: even large, heavy doors run smoothly and quietly with TopLine XL.
- With Silent System soft-closing, they gently shut without a murmur.

2. SlideLine M:

- SlideLine M provides the capability of combining open and closed sections in furniture.
- The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.

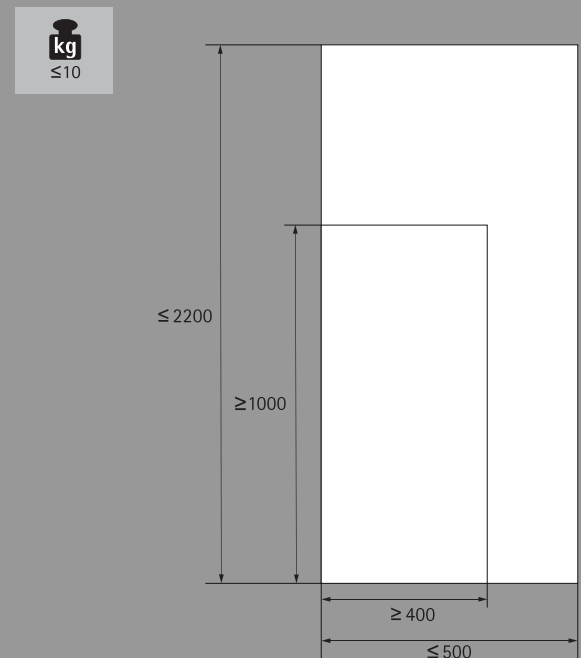

WingLine 780 & TopLine 110

1. WingLine 780:

- ▶ WingLine 780 folding door system manages with a simple design of carcase.
- ▶ Fitting it is very easy.
- ▶ Most practical: To fit shelves, the door panel detaches from the running element and simply folds back.
- ▶ Can be used for doors up to 10 kg each.

Min. and max. door sizes for WingLine 780:

2. TopLine 110:

- ▶ Runner profile and integrated soft-closing system are practically invisible.

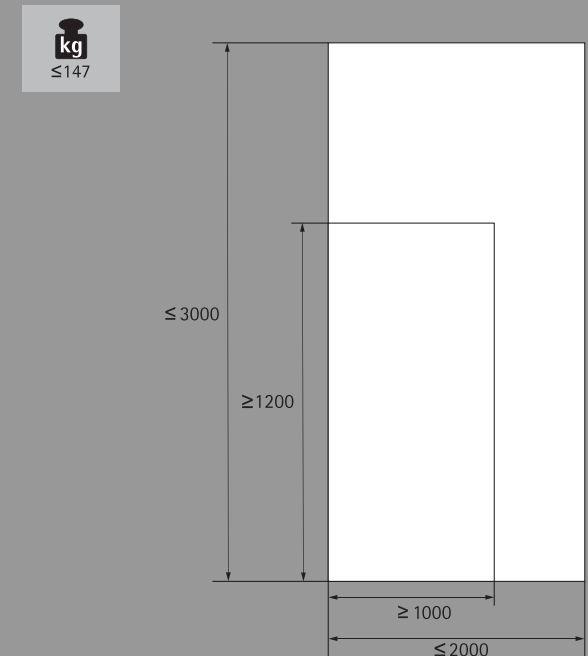

TopLine 1230 & Vertico Synchro

1. TopLine 1230

- ▶ For doors 1" and up weighing up to 325 lbs/door (147 kg/door)
- ▶ Precision ball-bearing wheels guarantee a smooth, quiet and effortless operation
- ▶ Four wheel carrier, center hung for efficient operation
- ▶ Vertical adjustment $\pm 1/4"$ (6.4 mm)
- ▶ Heavy duty aluminum I-beam track; jump proof design
- ▶ Conforms to ANSI/BHMA standards, Grade 1

Min. and max. door sizes for TopLine 1230:

2. Vertico Synchro:

- ▶ The Vertico Synchro single track sliding door system simultaneously moves two doors weighing up to 15 kg each.
- ▶ The doors run in an inset or overlay aluminium profile.
- ▶ The synchronising mechanism is pre-mounted in this profile.

1. InLine XL:

- ▶ The first sliding door system that manages without any handle at all. For the last word in design flexibility.
- ▶ InLine XL lets you create flush fitting unit fronts with the luxurious feel of premium convenience quality: opening in response to a gentle pull on the door's leading edge.

2. SlideLine M:

- ▶ SlideLine M provides the capability of combining open and closed sections in furniture.
- ▶ The 1-track, close fitting sliding door system functions as a practical design element on living-room wall units, shelf systems, kitchen wall units and bathroom furniture.

Talented organisers for the office

In most cases, work efficiency is a matter of organisation. And that begins with practical office furnishings. Office furniture excels itself with Hettich's intelligent organiser systems. Hettich systems create variable, easy-access storage space. They permit innovative workplace concepts. And provide convenient functions, like Silent System soft-closing or Push to open for handleless fronts. The Hettich platform concept delivers the key to varying office furniture in production and makes it easy to individualise. And later on, the modular system is also very easy to modify or extend.

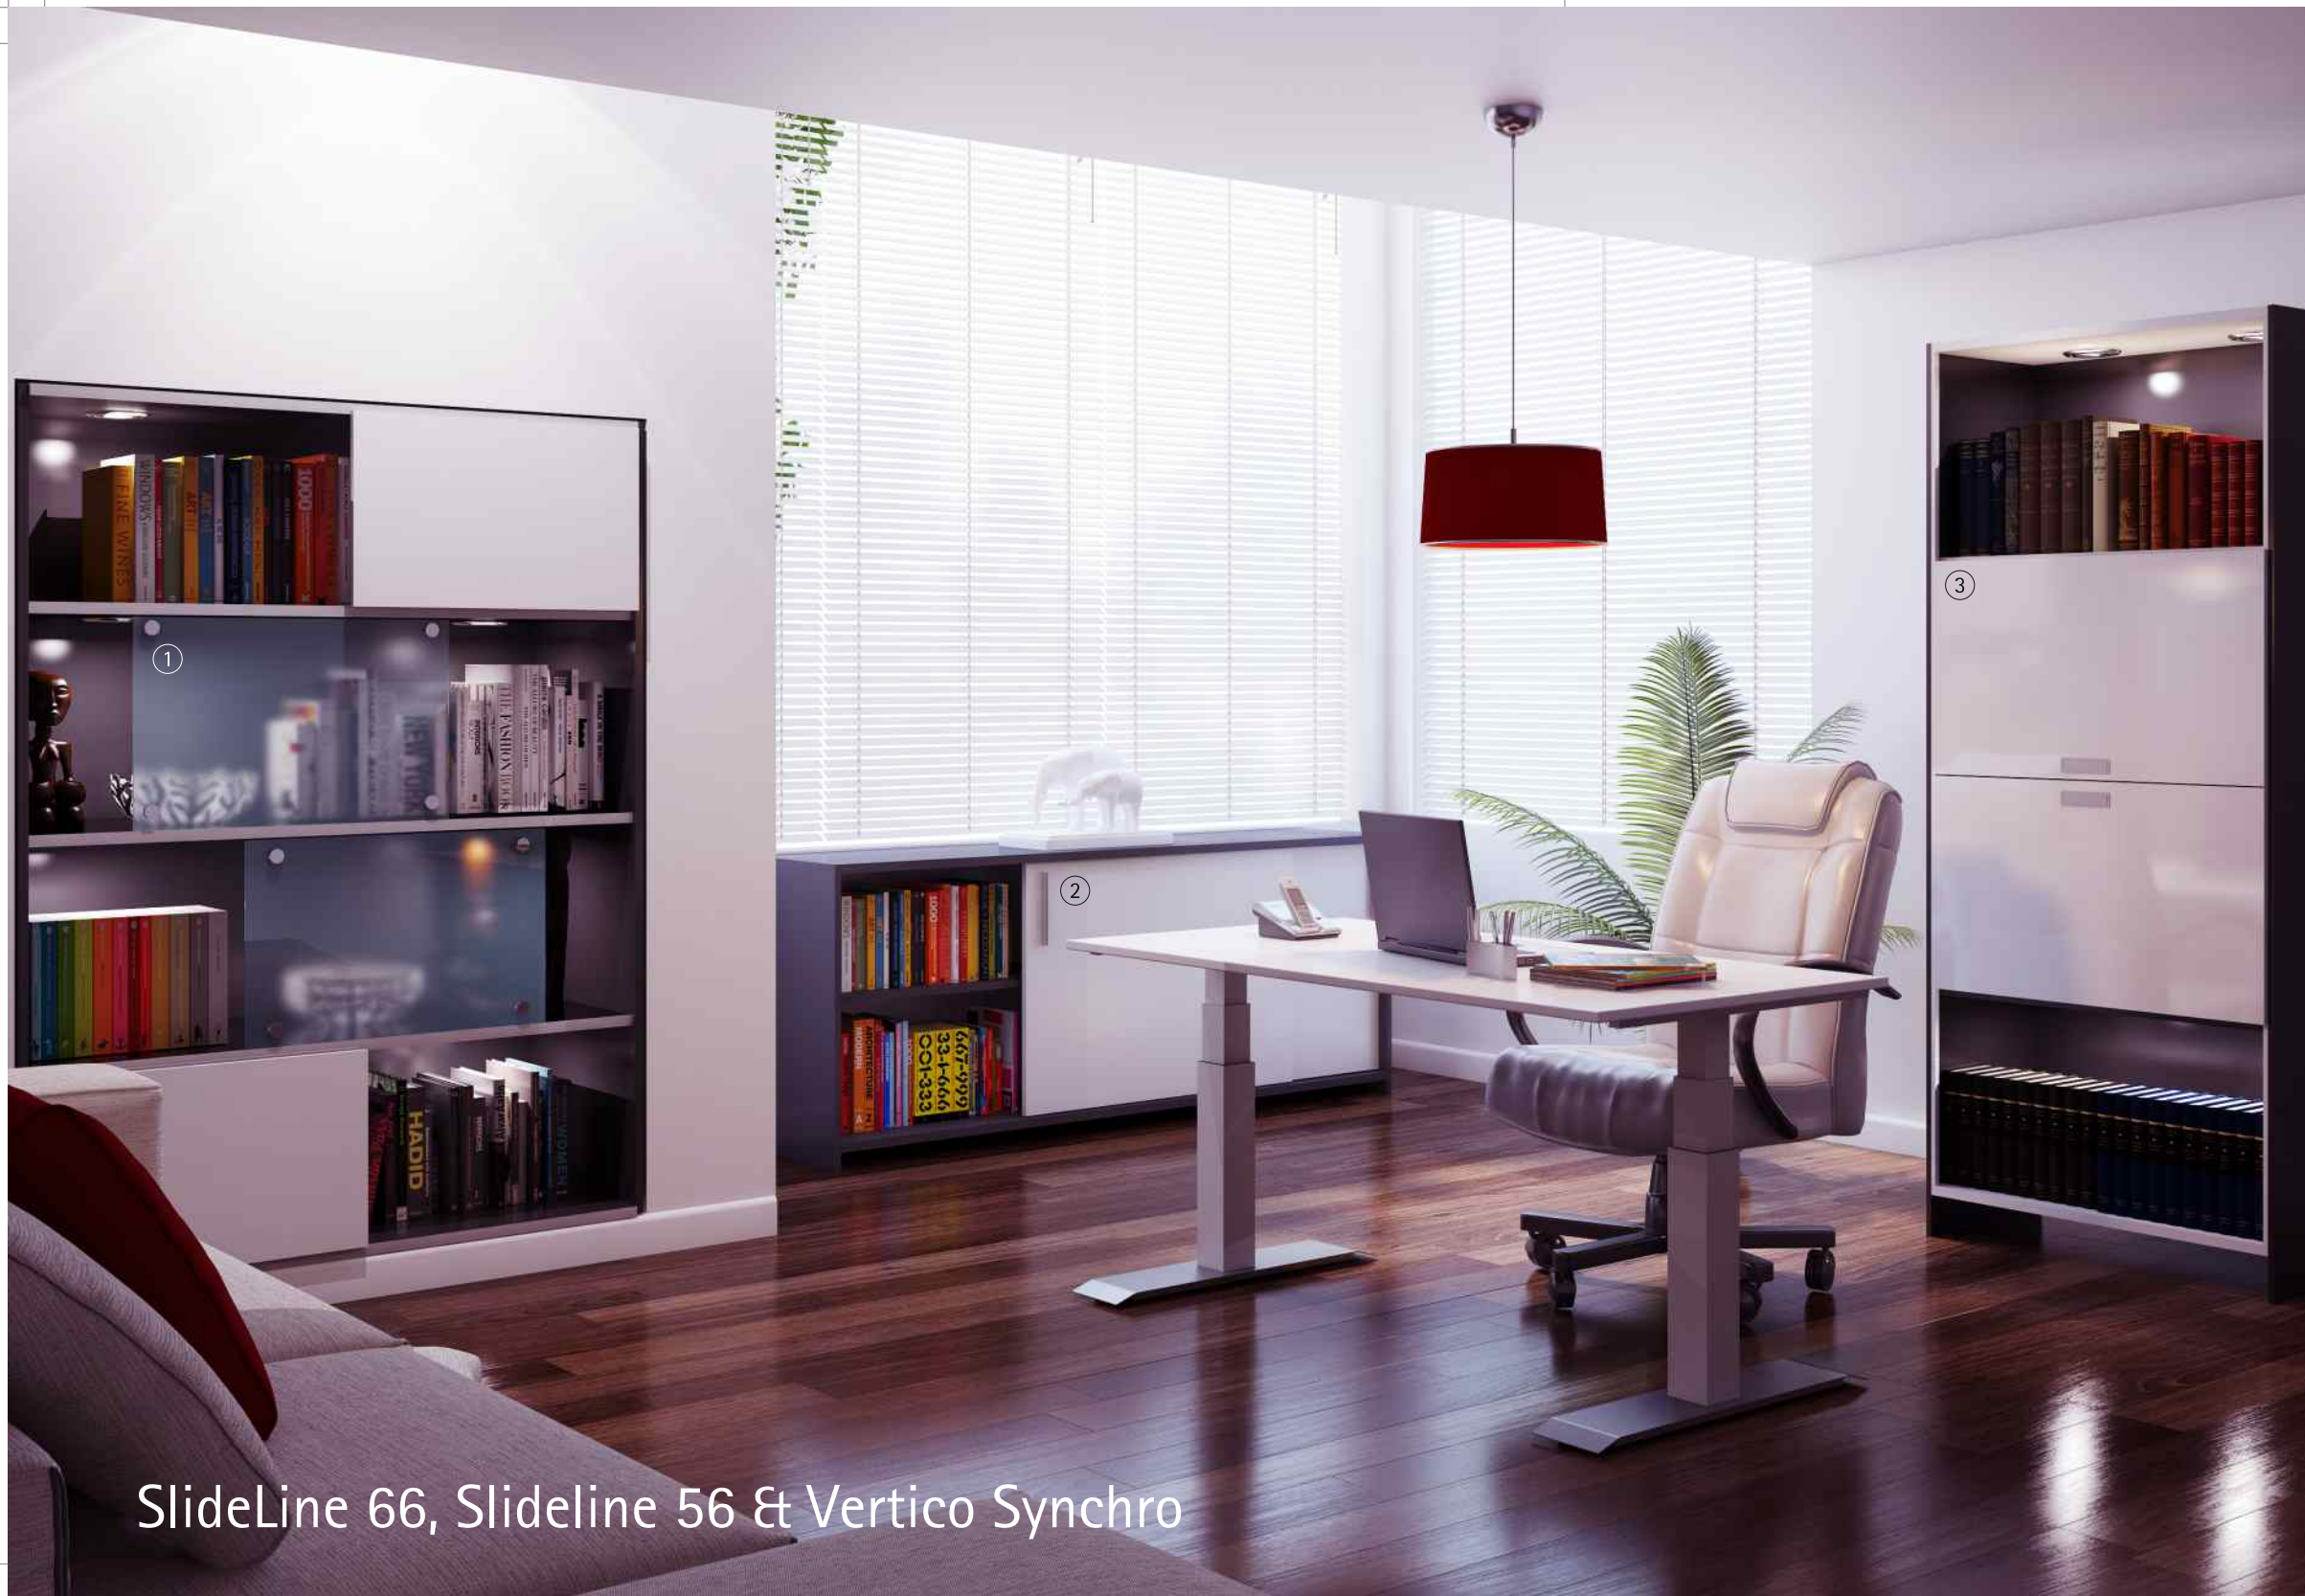

Office

WingLine 230:

- ▶ WingLine 230 is the giant among folding-door systems: surface areas in excess of 6 m² are swept open in a single movement.
- ▶ As an agile room divider. Or for a walk-in cabinet in living areas that can be opened and closed with a turn of the hand.
- ▶ WingLine 230 has exactly what it takes, supporting doors with a door weight of 20 – 25 kg.

SlideLine 66, Slideline 56 & Vertico Synchro

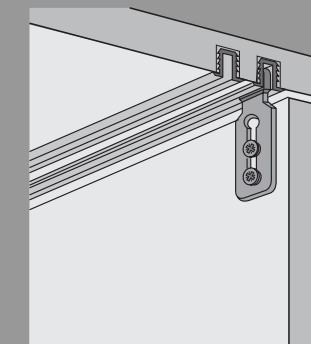

1. SlideLine 66:

- ▶ As a single-track sliding door system, SlideLine 66 is the perfect design element for creating bookcases and shelf systems.
- ▶ Weighing a maximum of 10 kg each, the aluminum, wooden or glass doors hug the cabinet carcass, with two doors being able to run one in front of the other.

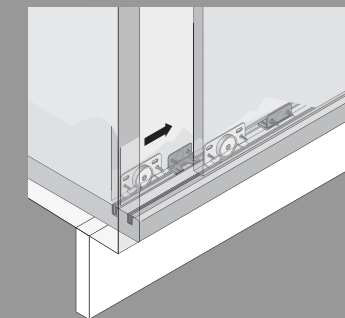

2. SlideLine 56:

- ▶ Bottom-running sliding door system
- ▶ Inset door position
- ▶ For wooden doors
- ▶ Door weight up to 40 kg
- ▶ For optional use with Silent System soft-closing function
- ▶ Runner and guide profile in aluminium

Mounting top door:

Mounting bottom door:

3. Vertico Synchro:

- ▶ Vertico Synchro single track sliding door system simultaneously moves two doors weighing up to 15 kg each.
- ▶ The doors run in an inset or overlay aluminium profile.
- ▶ The synchronising mechanism is pre-mounted in this profile.

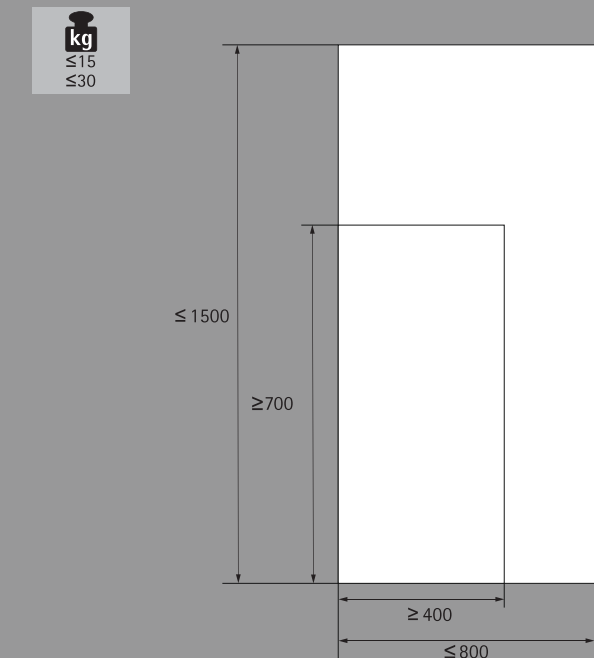

SlideLine 55 & WingLine 770

1. SlideLine 55:

- ▶ 2-track, bottom-running sliding door system
- ▶ Inset door position
- ▶ For wooden doors
- ▶ Door weight up to 15 kg with plastic profiles
- ▶ Door weight up to 30 kg with aluminium profiles
- ▶ Door height 700 – 1500 mm
- ▶ Door width 400 – 800 mm
- ▶ Door thickness 16, 19 mm

Min. and max. door sizes for SlideLine 55:

2. WingLine 770:

- ▶ The perfect synthesis of high loading capacity, attractive design and fast installation.
- ▶ The folding door system simply hooks into the runner profile with guide rollers keeping it place.
- ▶ Quality that's felt in every movement.
- ▶ Designed for doors weighing up to 20 kg.

1. SlideLine M:

- ▶ Single-track bottom running sliding door system
- ▶ Doors weighing up to 30 kg
- ▶ Shelf / panel thicknesses 15, 16, 18, 19, 22, 25, 38 mm
- ▶ Height adjustment +/- 2 mm
- ▶ Silent System with activators at any chosen position
- ▶ Fast installation of front without need for tools
- ▶ Tested to DIN EN 15706

2. Big Orga Tower

3. TopLine 110:

- ▶ For first-class design and added convenience in sliding-door units: TopLine 110 with Silent System.
- ▶ The convenient soft and self-closing system comes integrated in the runner profile.
- ▶ Once installed in the top panel, runner profile and soft-closing system are hidden from view.
